- Connect people in the club
- Frequently look for valuable documents, IELTS tests and share them with the club members
- Gather the members' opinions which are basis of suggestions to teachers in reorganizing classes or teaching methods.

SKILLS

Gitlab

I have practiced using Gitlab to manage different version of projects during internship period at Apecsoft a lot. My habit is adding, committing and pushing anytime when I finish a small module or a part of a huge module. Those combining with checking out to my authorized branch, pulling new update are mostly daily routine.

Programing

Language : PHP, Javascript, CSS, HTML, SCSS;

Framework : Codeigniter, Laravel, Nodejs, AngularJs

Library : Bootstrap 3, JQuery, Sweet alert, Toastr, Lightbox, Autonumeric, etc;

I have done several projects named as Oceanfront, 20 Again, anhnguyen, megacard.com, hanoihouse.info (<https://hanoihouse.info/>), <https://chuhonghanh20689.github.io/#/home> for both backend and frontend side using the languages, frameworks and libraries listed above.

MS office (Word, excel, power point, etc)

I have practiced these skills hundreds of times when doing my work tasks or school projects as well, including doing reports, statistic. Drafting and editing text on Microsoft word as well as calculating or arranging files on Excel appear to have been one of my habits over the last 5 years. Moreover, power point appears be indispensable towards presentations. I frequently make the slides with numerous different effects via power point, which enables me to smoothly give my presentation.

Personality

I always commit "The best of mine" for every single work task. I also pay close attention to different opinions and well adapt valuable ones to develop myself. Getting on well with people of different nationalities with different characteristics is one of my trait. Moreover, paying particular attention to that difference in teamwork is one of my habits. Besides, responsibility and result orientation are my core values as well.

Teamwork and presentation

I have had numerous group assignments in the university (both in Vietnam and Singapore). I usually actively give suggestion and contributions for the group to do the tasks. I also synthesized the allocated works from other members to make the coherent and complete piece of assignment. Balancing the ideas and opinions of other members, and mediating the conflicts in the group are my way when working in groups. I am good at presentation. We got high marks on teamwork in strategic finance (A), and organizational behavior (A-), and Capital market and Institution (B).

Organization and Time management

I always organize work and study in a logical way to keep myself balanced. I often plan ahead in a timetable of what to do and how to accomplish the tasks in a certain period of time. I normally start from the most urgent deadline.

LANGUAGE PROFICIENCY

English

Fluent (IELTS 6.5)

Vietnamese

Mother tongue
